RESPIRATOR USERS NOTICE

To Whom It May Concern:

Safe Life Corp. releases the following statement regarding our NIOSH-certified respirators A430 (84A-5161), A450 (84A-5162), T-5000 (84A-4110), and T-5000V (84A-4234), which are treated with Triosyn T50 powder, an EPA-registered substance (EPA # 72897-2):

Triosyn T50 powder is recognized by the EPA as a microbiostatic agent that inhibits the growth of odor causing bacteria , which cause staining and discoloration, fungi (mold and mildew), and algae. This product does not protect users or others against food-borne or disease causing bacteria. Finished products containing the Triosyn T50 powder may not make public health claims relating to anti-microbial activity without first obtaining the necessary regulatory approvals.

Should you have any questions regarding this matter, please contact Albert Rego, Vice President of Regulatory Affairs, Quality Assurance and Science Applications.

Sincerely,

A handwritten signature in black ink that reads "Albert Rego". The signature is fluid and cursive, with a long horizontal stroke at the end.
